Cook of the Georgetown club stoutly denies, stating he believes the protest that has been entered to be but a filmsy excuse for depriving Fister of the honor he has won. He believes that the doubt has been cast not by the Washington Road Club, but by only a few jealous members. He says further that if Fister was pushed or assisted in any way it was without the knowledge of the club, and he thinks it highly improbable that any outsider would take so much interest in the contest as to help him. The Georgetown Cycle Club will therefore claim and record the ride as the longest ever made in America in twenty-four hours. Fister, it will be remembered, traveled a distance of over 230 miles in twenty-four hours. Capt. Geo. W. Cook of the Georgetown club

Very many babies that could not be reared, that pined and wasted on other food, have grown fat, fuddy and strong when fed on lactated food.

Just now, when the death reports show a fearful prevalence of diarrhoea and cholera infantum, lactated food is doing its best work.

It is saving the lives of babies in nearly every city and town in the union. Every day most touching letters come from mothers whose babies have escaped or safely gone through dangerous complaints by the help of lactated food.

He used a telescope to better see the movements of the troops. He was particularly impressed by the evolutions of the Honveds, and while watching them remarked to Emperor Francis Joseph, who was standing beside him: "What splendid horsemen your Honveds

"What splendid horsemen your Honveds are!"

The fronts of the attacking and defending lines were drawn out in battle array extended over three miles, and the opposing forces numbered more than 130,000.

The operations Tuesday and yesterday have been full of surprises, and, despite the shortness of time, remarkable results have been accomplished. These developments are regarded by the military authorities as prophetic of the prevailing features of the next war. They say that nowadays the movements on both sides are so elaborately prepared, with a view to rallying all possible resources with the utmost rapidity, that ble resources with the utmost rapidity, that

Archduchess Maria Theresa, sister-in-law
of Emperor Francis Joseph, is following the

The battle yesterday was mainly an artillery combat. Both armies have thus far
borne the fatigue of the campaign remarkably well, and no sickness among the troops,
save a few cases of minor disorders, has
come to the attention of the army doctors.
